Make Your Rugs Look Like New

Rugs and carpets, except in very few homes, do not receive the care and attention they should. Every up-to-date housewife has polish for her furniture, wax for her floors, varnish for her woodwork and the curtains are regularly laundered, while the rugs and carpets receive an occasional beating or are scrubbed with soap and water.

Some of the hard work done to keep rugs and carpets looking right actually does more harm than good. Beating breaks the warp, while scrubbing rots it; either operation is likely to leave the rug rumpled and misshapen. A simple application of osonite will restore the colors in a rug, renew the natural oil in the fibers and raise the nap, making it as bright and soft as new. You can buy osonite from your druggist in an air-tight container, enough for two large 9x12 rugs for 50c. You just brush it over the surface of the rug and wipe it off.—Advt.

FACTS ABOUT YOUR HAIR

There are about 175,000 hairs in your head.

Each one is an independent oil plant and like any other plant must have constant care.

If neglected, it gets sick and dies.

Dandruff is the greatest enemy of the hair.

It seeps up the hair-cells, smothering out the roots and causes the hair to fall.

The head should be kept free from dandruff.

The hair-cells should be kept open and healthy.

Not by washing with toilet soaps nor alkali shampoos that will attack the natural oil of the hair and destroy the fatty roots.

An oil shampoo with no free alkali should be used.

EVERY WEEK ANTI-SEPTIC OIL CHAMPOO contains no free alkali.

It opens the hair-cells, leaves the scalp soft, anti-septic and free from dandruff. It is the only shampoo containing mineral oil which is a real benefit to the hair plant.

Its rich creamy lather thoroughly cleanses the hair and leaves it soft, lustrous and healthy.

To insure a vigorous, healthy scalp men and children should have a shampoo every week, women every other week.

REPORT SEVERAL KILLED IN PERU

Americans and British Said to Be Victims of Oil Strikers.

CORINTO, Nicaragua, June 3 (by radio to San Diego, Calif.).—A number of American citizens and British subjects have been killed at Talara, Peru, by striking employees of the London Pacific Petroleum Co., according to an unsigned wireless message from the steamer Somo to the United States cruiser Raleigh at this port.

The massacre, according to the message, occurred yesterday. The strikers, it was said, had threatened to burn the petroleum works and the Peruvian government was reported unable to cope with the situation. The message stated that communication with Talara had been interrupted and requested that the Raleigh proceed there to the relief of foreign residents.

Asserts That Williams Issued Bogus Letters

MUNCIE, Ind., June 3.—That Gene Williams, deputy prosecuting attorney on trial in the circuit court on a charge of conspiring with Mayor Rollin H. Bunch and police officials to solicit and accept bribes was the instigator of the famous bogus Civic league letter, was the testimony of Mayor Bunch and Harry Stout, a printing shop proprietor. The letter was sent to members of the first venire drawn for the Williams trial, asking them to convict Williams if they were selected as jurors because a conviction would result in the election as circuit court judge of W. A. Thompson, republican, who is special prosecutor in the Williams case.

Dale, a close personal friend of Mayor Bunch and an intimate of Williams, was forced to tell on the witness stand by Pros. Thompson that Williams came to his (Dale's) office and asked for a genuine Civic league letterhead which Dale had, and that Williams wanted to know if the letterhead could be duplicated. The editor then stated that Harry Stout, printer, was called in and he took the letterhead and had an etching made of it and printed the bogus letter. Stout himself, a close friend of Mayor Bunch and Williams, testified that he printed the bogus stationery for Williams and received \$2.00 for the work.

The state has evidence, it is said, that Williams had a stenographer typewrite the letters in the office of Roy Hathaway, who was, according to the evidence of Lloyd W. Yount and Robert B. Crabbs, one of the collectors of graft money, and that as soon as the letters were written, the young stenographer was sent out of the city and is now at Dayton, Ohio. The writing of the letter is no violation of Indiana statutes, but it constitutes the grossest contempt of court. Judge Fred Gause will not take action on contempt charges until after the completion of the trial. The defense fought hard to keep the letter testimony from going before the jury, but Judge Gause overruled all their objections.

Try Move "Slugging."

Robert Crabbs, state witness, came near being "slugged" Thursday noon by Art Bunker, a blind tiger keeper, according to Crabbs' testimony in the stand Friday. Crabbs said he had been decoyed to the saloon of Billy Finan and as he stepped out Bunker made a pass at him. Crabbs testified that he ran, closely followed by Bunker, and out-distanced Bunker.

Crabbs Friday after relating that he and Mayor Bunch were in the blind tiger business together, said that a systemized graft existed in Muncie. He said that Art Atkinson, a tailor, was the collector from all the gambling houses and collected \$10 a week, which he stated went to Deputy Pros. Williams, Clarence W. Wiley, a personal friend of Mayor Bunch, enjoyed the faro bank privilege in Muncie, according to Crabbs. The witness told of having collected various sums of money from numerous blind tiger operators and declared that the sum amounted to more than \$2,000. This was for "campaign purposes," so the witness said Mayor Bunch told him to tell the operators. Late Friday, the state introduced the report of the democratic county committee treasurer and it showed that none of the money, alleged to have been collected for "campaign purposes," reached the county committee.

The Country Air.

There are domestic sermons who object to going to the country for the summer because it is lonely for them, while others are glad to have a place in the country where they can get the fresh air and have the country quiet after a winter in the city.

If you need a cook this summer, run a News-Times Want Ad, stating your need, and you will find one soon, who will be glad of the opportunity of going to your country place.

Don't fail to use the News-Times Wants, for that is the way to get the best girls and the girls that remain with you.

Japan's match industry has suffered greatly because of the difficulty in importing materials. Another important problem in the island empire is the shortage of steel.
